

PTX-TAB Quick Start Guide

Getting Started with Your PTX-600 Bluetooth Transmitter

In the Kit

- PTX-600 transmitter
- Tablet
- Antenna
- Charger (usable by both tablet and transmitter)

TRANSMITTER SETUP

- 1. Establish a Bluetooth connection between the transmitter and tablet.
 - a. **On the transmitter,** connect the antenna to the co-axial port.
 - b. Flip the switch to the **ON** position. The green light on top of the transmitter will begin blinking rapidly.

TIP: It may take more than one scan for "ATS_PTX" to appear in the list of available devices. If "ATS_PTX" does not appear in the list after the first scan, tap "Scan" on the top right until the device is recognized.

e. You have successfully paired the two devices once the green light on top of the transmitter blinks slowly.

2. Install the PTX-BT app.

- a. Ensure you are signed in using your Google account.
- b. Open the "Drive" application.
- c. Swipe from the left of the screen to open the Drive menu.
- d. Tap "Shared with me," then "PTX600BT135_release.apk".

TIP: On attempting to open the file in step 1e, you may receive this error:

For your securit this source.	y, your phone is not al	lowed to install unknown a	pps from

ATS Targets (Advanced Training Systems) 651.429.8091 | atstargets.com

This is a permissions issue common on new tablets. Tap "Settings" and turn the switch "Allow from this source" to the position. Exit "Settings," open "Drive," and proceed with app installation from step 2e.

e. Tap "Install," then "Open."

f. Tap "Allow" if prompted.

TIP: The app's icon will not be added to the tablet's home screen by default. For faster access, add the icon to your home screen by tapping and holding on the icon from your app drawer.

3. Set the app to control your PTX-600 transmitter.

a. In the PTX-BT app, tap "CONNECT."

b. Tap the name of the desired PTX-600 transmitter.
