

ST-71 Pop Up Auto Reset Sniper Target

Key Features:

- Low-cost, any-distance target
- Portability, so it can be carried by a single person
- Lightweight (40 lbs.)
- 3/8-in. AR500 ballistic steel silhouette target (12-in. W by 18-in H by 3/8-in.)
- Auto-reset. Target resets itself automatically 5 seconds after each hit
- Built-in power supply; no external wire
- Simple operation; once the switch is turned on, the unit instantly becomes operational
- Optional silhouette or lollipop-style targets. Also, other shapes are available upon request.

Excellent marksmanship is crucial for your tactical team. That is why ATS Targets created the Long-Distance Sniper Target (ST-71). The ST-71 is compact so that you can transport it wherever you go.

Auto-reset lets you spend time shooting, not getting your steps in. It comes with a reactive steel target and ballistic rated front barrier.
